RapidArc radiotherapy is not appropriate for all cancers. Serious side effects can occur, including fatigue and skin irritation. Treatment times may vary. Ask your doctor if RapidArc is right for you.

At Varian, we're inspired by cancer patients. We're inspired by their determination. Their passion. Their love of life.

**Introducing RapidArc™, the latest breakthrough in cancer therapy.**

RapidArc cancer therapy delivers a highly focused dose of radiation in three dimensions, directly to a tumor. You come in, get treated for a few minutes a day, and you're back to everything you love.

To find out more about this exciting new technology ask your doctor or go to **VarianRapidArc.com**.
